Rewards Program Details

Purpose:

The purpose of this rewards program is to help you (the student):

- (1) Stay motivated to work hard and accomplish tasks that will lead you to academic success,
- (2) Be able to track your positive efforts, and
- (3) Have fun!

Directions:

- (1) Talk with your parents. If they agree to it, then fill in the prize you are working toward that your parents will award you with once you get to 100 points.

- (2) Each tutoring session, you have the possibility to earn 10 points!  Your tutor will decide if you worked hard, stayed on task, and/or made great progress to earn the points.

Note to Parents: Points can also be earned for doing well during the week. Feel free to use this board any way you think it will help motivate. Many students may also enjoy putting a sticker in the point boxes as they progress to mark off their steps.

- (3) Fill in the white box by writing what you accomplished to earn those points! Earning the prize at the end is not the only success. By jotting down what you did to earn the points, you get a nice record of your hardwork and will see how it leads to other good things as well.

- When you get to 100, you earn your prize!
