

## FRESHMAN YEAR

Let's take a look at a typical Student-Tutor case.

Johnny Student starts off high school, and he's doing okay in most of his subjects. He's getting A's in his electives, B's in English and History. But he's getting a C in Chemistry, and a D in his math class.

Choir	Chemistry	Math	English	History	PE
<b>A</b>	<b>C</b>	<b>D</b>	<b>B</b>	<b>B</b>	<b>A</b>

By the end of his freshman year, Johnny ends up with a 2.83 GPA.

If he holds that pattern all through high school, and gets a decent SAT score, he'll be eligible for a small \$1,500 award from Arizona State University. Not much of a drop in the tuition bucket.

We can do much better than that.

Instead of sitting back, you (Mrs. Student) give us a call. And we spring into action right away.

**First, our Academic Consultant provides you and Johnny with a 30-minute strategy session.**

*(This takes place on the phone and over the computer--so there's no need to leave the house!)*

- 1** We talk to both of you, listen to your story, and, with your help, build a customized plan sure to lead Johnny to success.
- 2** We figure out Johnny's pain points, and find the perfect tutor to help fix them.
- 3** And, together, we develop and set a clear goal to reach.

In this case, it's a \$9,500 annual merit-aid scholarship to Arizona State University.

To reach that goal, Johnny will need a 3.6 GPA, and an SAT score of 1350 (just counting the math and reading sections).

**Totally doable.**

## SOPHOMORE YEAR

### Tabitha Tutor starts meeting with Johnny once a week.

They work on bringing english and history up to A's, and focus in on science and math.

During their tutoring sessions, they meet at the library near Johnny's house.

Johnny gets out his homework assignments. They do practice problems, and Tabitha breaks down tricky concepts and nails down fundamentals.

### And she always makes sure that Johnny demonstrates mastery.

So the session after she teaches him a concept, Tabitha has Johnny explain the concept back to her.

As a bonus, she helps Johnny with his study skills and organizational habits.

Now, he knows how to study a textbook, and he's staying on top of his homework deadlines and test dates. His grades are improving, and he's flying higher than ever.

By the end of sophomore year, Johnny gets four A's, and brings his lower subjects up to B's.

<b>Choir</b>	<b>Biology</b>	<b>Math</b>	<b>English</b>	<b>History</b>	<b>PE</b>
<b>A</b>	<b>B</b>	<b>B</b>	<b>A</b>	<b>A</b>	<b>A</b>

That brings his cumulative GPA up to 3.25!

## JUNIOR YEAR

That summer, Johnny takes an SAT practice test, and scores 600 out of 800 on the math section, and 630 out of 800 on the reading section.

Not quite high enough. So we start working with him on test-taking strategies.

**By this point, Johnny's study and organizational skills have noticeably improved.**

He feels more confident than ever in his classes.

Johnny and Tabitha still have homework sessions, but he's getting better and better at learning the material on his own.

In fact, he and Tabitha occasionally work ahead in his classes!

**Now, at the beginning of junior year, Tabitha mostly works with Johnny on strategies for the SAT.**

When he takes the SAT in October, he gets a 620 out of 800 on math, and a 645 on reading.

Tabitha keeps working with Johnny, and when he takes it again in the spring, he gets a score of 700 on reading, and 650 on math.

That's 1350--the magic number!

Plus, his junior year report card reflects his academic improvement, showing off straight A's.

**700** **650**  
**SAT: 1350**

**A A A A A A**

Now, Johnny's GPA has jumped all the way up to 3.5!

## SENIOR YEAR

With his current GPA, Johnny's eligible for an annual \$8,000 award from ASU. But he'll jump even higher than that!

### As a senior, Johnny's brimming with confidence.

He's got high self-esteem and fantastic study skills...and support from the dedicated team at Student-Tutor.

With the world on his side, Johnny finishes out his senior year with straight A's and a great test score in his pocket.

That final report card brings his GPA up to 3.62, and he's well in the clear for ASU's Presidents Award.

That's \$9,500 a year.

**That covers nearly all of Johnny's tuition costs for all four years.**

**Way to go, Johnny!**
