# Student-Tutor Rewards Program

## Purpose:

The purpose of this rewards program is to help students:

- (1) Stay motivated to work hard and accomplish tasks that will lead them to academic success,
- (2) Be able to track their positive efforts, and
- (3) Have some more fun while they are at it!

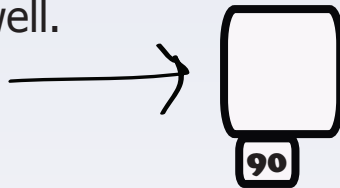

## Directions:

- Fill in the prize you are working toward with your parents in the "Prize!" box.

- Each time you have a great tutoring session, you earn 10 points! Points can also be earned for doing well during the week. Parents, feel free to use this board any way you think it will help motivate. **10** Many students may also enjoy putting a sticker in the point boxes as they progress to mark off their steps.

- Fill in the white box what you accomplished to earn those points! Earning the prize at the end is not the only success. By jotting down what the student did to earn the points, he/she can record good behavior and see it leads to other good things as well.

- When you get to 100, you earn your prize!

**Have fun and happy tutoring!**
